## WILL INSPECT

Supt. Muscoe Burnett to Ask the Council For An Investigation.

## ALL CITIZENS INVITED

Mayor Lang States That the Only Filtration Required Is Through a Rotary Strainer.

## HE THINKS WATER IS TOO MUDDY

Supt. Muscoe Burnett, of the Paducah Water company, has addressed the following communication to the council, to be presented at the next meeting.

To the Mayor and Council, Paducah, Ky.

Gentlemen: This company respectfully requests that you appoint, at your next meeting, a committee to thoroughly inspect and examine the location of the intake or suction pipe, with the view to ascertaining the truthfulness of the charge made by certain irresponsible parties that the sewerage or drainage of the city, or any part of it, is, or can be, pumped into the water that is furnished the citizens of Paducah.

The stockholders of this company number about forty, all of whom are citizens of Paducah, and with but few exceptions have families, and I can safely state without contradiction, that they value the health and lives of their wives and children far more than they do the few dollars that it would take to extend its suction pipe beyond the drainage or sewerage of the city. It is true that the water furnished recently has been very muddy—as has been the case in every city situated on the Ohio river—due to the unprecedented rise in the river, but it has been absolutely free of any contamination from the drainage of the city.

We will be glad to have any of the citizens to make this inspection with your committee.

Very respectfully,  
MUSCOE BURNETT, Supt. and Treas.

Mayor Lang was seen by a reporter this morning relative to the question asked what effect the ordinance authorizing the water company to use a rotary strainer instead of a filter, had on the original ordinance requiring the company to furnish "clear, filtered Ohio river water."

"There is no doubt but that it repels it," replied the mayor. "I have known it for a long time, and this is the reason nothing has ever been done. I don't know that the council knows anything about the ordinance, or knew of its existence until it was published. But I knew about it, and all the filtration it requires of the company is 'through' the strainer."

"As to the muddy water question, we have no more trouble in this respect than many other cities. There is no way, apparently, to filter the water we use. The city of Paducah uses 1,000,000 gallons of water a day, and no feasible plan has yet been suggested for filtering it. It is not a matter of dollars and cents, but of practicability."

"I believe that the water is as pure as that used by any other city that draws its supply from the river. There is no sewerage in it. Oak Grove was formerly drained entirely through the city, but now it is drained into Perkins creek, which is quite an advantage. I never could understand why it ever was drained the way it was. But that disadvantage has disappeared."

"I remember the analysis of the water and do not remember whether it stated that it contained organic matter or not."

It is certain that the water question will come up before the council at its next meeting, but it is not known what can be done.

The water company invites any one to investigate the source of water supply, and Mayor Lang says that there is no doubt but that it comes from the Ohio river.

The company also has an emergency pipe, and whenever, if ever, it becomes necessary to get water from the Tennessee river, the company will notify the people in order that they may boil the water, or do whatever is necessary to purify it.

## MOTHER-IN-LAW DEAD.

MRS. W. A. BOGARD DIES AT HER HOME IN THIGG COUNTY.

Mr. Hugh Miller, an employee at the Jake Biederman grocery company, today received news of the death at Golden Pond, Thigg county, of his mother-in-law, Mrs. W. A. Bogard, who announced to him age, Mr. Bogard, husband of the deceased, is well known in Paducah.

Cincinnati, O., July 9.—The regular program of the Twentieth International Convention of the Christian Endeavor were begun here. Several of the largest churches in the central part of the city are used in addition to O'Brien Hall and the three large auditoriums heretofore used for exposition purposes. Two quiet hour meetings were held from 8 to 9 a. m. conducted by Floyd W. Tompkins, of Philadelphia, and Cornelius Worfolk, of Brooklyn.

G. Campbell Morgan, of Baltimore, conducted a meeting on Bible teaching and J. E. Carson, of Brooklyn, one on "The Holy Spirit." Miss Margaret Koeb, of Waterville, Me., conducted a conference on "Biblical and Vocal Devotion."

At Auditorium Endeavor, President Clark presiding and H. C. Lincoln, of Philadelphia, as director of music, "The Twentieth Century Home" was the topic, with addresses by Clarence J. Harris, Atlanta, Edwin Forrest, Hallowell, Albany; Ira Landreth, Nashville; J. E. Pounds, Cleveland; W. G. Marsh, Adelaide, Australia; and Robert Johnson, London, Ont.

A unique feature of the convention is the noonday evangelistic work, arranged under the direction of Dr. C. L. Work, of Cincinnati. Services were held in the tenement and manufacturing districts by ladies and gentlemen visitors who volunteered their services.

## SENTENCED TO JAIL.

SEVERAL PETTY THIEVES SENTENCED BY JUDGE EMERY THIS AFTERNOON.

Judge Emery tried the following petty larceny cases this afternoon: Henry Level, Cole Vaughn and William Hayes, all colored boys claiming to be under the age of 15, found guilty to stealing a pair of shoes, a pair of pants and a bottle of whiskey from the Altman and Sam Starks, the Second street merchants several months ago. They were sentenced to three months each in the county jail. The boys claimed to be from Hopkinsville and said they had come here to attend the carnival. It is the opinion of the authorities that they travel about the country stealing.

U. S. Grant, colored, pleaded guilty to the charge of petty larceny, and was sentenced to thirty days in the county jail. He was charged with stealing brass and scrap iron from the Illinois Central railroad and was caught in the act by Watchman Tilden.

Dona Jones, colored, charged with stealing 50 cents, was presented and the case continued until tomorrow afternoon at 2 o'clock.

Isadore Herrick, colored, charged with petty larceny and in aiding in the theft of \$10, was also brought in but as the warrant against her was in circuit court, the case was not tried.

## USED A RIFLE.

AMBASSADOR WHITE'S SON SUICIDES IN A BATH ROOM.

Syracuse, N. Y., July 9.—Attorney Frederick D. White, son of Ambassador White, committed suicide tonight. He had been suffering from neurasthenia. He went to a bath room at his home and shot himself in the head with a rifle.

It is said the cause of the suicide was ill health, following typhoid fever and nervous prostration as a result of the hot wave, which, it is said, brought on melancholia.

## BOER LOSSES.

HEAVY INROADS MADE IN THE BURGHESSE ARMY IN THREE MONTHS.

London, July 8.—The financial secretary of the War Office, Lord Stanley, in the House of Commons, in answer to a question, gave the total number of Boers killed, wounded or made prisoners, from the netta campaign, recently, as follows:

March, 1,772; April, 2,431; May, 2,610; June (incomplete), 1,533.

## NO RIDES OPENED.

The building committee of the Old Fellows and Masonic office met in the office of Architect R. B. Davis this morning, but did not receive any bids.

They adjourned to meet again Thursday when the bids will be all in and probably opened.

The Sun only 10c a week.

## SUDDEN DEATH

Mrs. W. S. Taylor Dies Suddenly From Heart Disease at Indianapolis.

## A DENVER HORROR

## HINES CLOSES INVESTIGATION

Indianapolis, Ind., July 9.—Mrs. Sarah Taylor, wife of ex-Governor W. S. Taylor, of Kentucky, died this morning of hemorrhage caused by heart disease. Her death was very sudden and unexpected, and has been a great shock to the family. The funeral will be at Morgantown, Ky.

## WEALTHY MAN SUICIDES

Waddy, Ky., July 9.—W. M. Crutcher, a wealthy farmer and brother of D. C. Crutcher, of the firm of Crutcher & Starks, Louisville, committed suicide with a revolver. His illness is supposed to be the cause.

## ASSAULTED AND STABBED

Denver, July 9.—Carrie Kimport, aged fourteen, was assaulted and stabbed to death at her home here last night during the absence of her parents. Mrs. Bellie met the same fate. Chris Jensen was arrested and confessed to both crimes, and that he has for years been outraging women at night.

## A QUIET PRIMARY.

Louisville, July 9.—The Democratic primary here is quiet, but a great deal of interest is manifested.

## SYMPATHIZE WITH YOUTHEY

Newport, July 9.—There was a great stir in the Baptist church here last night when a motion was made to expel Henry Yontsey. His friends strenuously opposed it, and the motion was voted down. After speeches had been made, a motion of sympathy for Yontsey was unanimously passed.

## ASYLUM INVESTIGATION CLOSED.

Hopkinsville, July 9.—State Inspector Hines has finished his investigation of the charges against Asylum Physician Lackey.

## INDEPENDENCE OR NOTHING

London, July 9.—The British government has issued further South African correspondence concerning the peace negotiations which commenced with the text of the proclamation of Messrs. Schalkburger and Steyn, called by Lord Kitchener to the government July 2 and read by Mr. Broderick in the house of commons the night of July 1.

Messrs. Schalkburger and Steyn affirm in this proclamation that Mr. Kruger and the Boer deputation abroad made satisfactory reports that peace would be worthless without independence; that no peace had been accepted whose price was the national existence and that in the interest of the colonial brothers, the war would be vigorously prosecuted.

## A LONDON BANKING HOUSE

## THE CHARGE WAS DISMISSED

When Jim Sherrill, an old colored citizen, was placed on trial this morning in the police court for assaulting his aged sister, Phoebe Mayberry, the prosecuting witness was called.

"Yesah, yesah, I'm comin' sah," was the prompt response from the court room, and there was a rustling about and confusion as she disentangled herself from the other spectators.

The old woman shuffled up, and chewing vigorously, said: "Watt well I take ma bunnet off, judge." Off came the bunnet, and losing herself in the big chair, she looked benignly at the court and waited to be touched off.

"Now, Aunt Phoebe, listen," cautioned the court. "We don't want much talking in this case. Answer the questions that are asked you, and that's all."

"Yesah, y'esah," she replied slowly nodding her head.

"How old are you, Aunt Phoebe?" began Attorney Graves.

"D-d-d-d-d-d-d-d-d-d," she replied. "I na b'n' lefo' the wah."

## WATCH STOLEN.

MR. J. F. PERRINE FINDS STOLEN TICKET IN THE PAWN SHOP.

Mr. J. F. Perrine, the commission merchant, had a fine silver watch stolen from him yesterday. He made a search for the missing article and found it in a pawn shop. The officers were given a description of the negro who had pawned the watch and today are searching for them. It is thought that the thieves left the city on an early morning train as three negroes answering to their description were seen hanging around the railroad.

The young ladies of the Trimble street M. E. Church will give an ice cream supper Tuesday evening, July ninth, on the lawn opposite church.

## STRIKE OVER

It Is Announced That the Steel Workers' Strike Will Be Adjusted.

## A CONFERENCE THURSDAY

Officials Of the Amalgamated Association and Steel Trust Are to Meet Then.

## 12,000 MEN RETURN TO WORK

Pittsburg, Pa., July 9.—It is given out today that the steel strike will no doubt be settled Thursday. President Schaffer, of the Amalgamated Association, is authority for the statement, and the news is being gladly received. He says that he regards the meeting at the Hotel Lincoln, at Pittsburg, Thursday, as being one of the most important for labor ever held. Officials of the Amalgamated Association from all over the country are now hurrying thither on telegraphic orders to meet there Thursday. They will treat with the high officials of the steel companies.

There has been a resumption of work in many iron and steel mills. The mills have been idle for two weeks for repairs. It is supposed that fully 12,000 men returned to work.

The following concerns have signed the Amalgamated scale: Standard Chain company, Columbus, O.; Niles Iron and Sheet company, Niles, O.; Lake Erie Iron company, Cleveland, O.; Empire Rolling Mill company, Empire, O.; and the Pittsburg Forge and Iron company of this city.

All the independent companies in

the Pittsburg district have now signed the scale and A. M. Byers & Co., and their signature is expected as soon as the repairs to the plant are completed.

## BIG SHOOT.

LOCAL CRACK SHOTS TO SHOOT FOR A PURSE.

Messrs. Ben and Moses Starr and Mr. Hal Walters and one other sportsman to be selected by Mr. Walters, will meet at the park Friday afternoon in a match shoot for a purse. The match will be the best ever contested in Paducah and will no doubt be well attended. They will each shoot at 25 live birds and the side making the highest score will take the purse. There has been some competition among them of late and the above gentlemen have often tied. They will shoot more for the satisfaction of victory than the purse. There will be no other shooting on the grounds Friday and the local sports are looking forward to the coming of Friday with much impatience.

DAILY THOUGHT  
Give your best. Do not look for a place ready made to fit you, but for yourself a place.—William De Witt Hyde.

OUR EXPANSION  
A great deal has been said recently about expansion, remarks the Philadelphia Post. As a matter of fact, there has never been anything else in the United States. There will probably be nothing else. The whole gospel of American life is to get bigger, whether it be a matter of dollars or of acres. With all its wealth and all its commercial gain this country is not yet one-fourth settled; its resources have been merely scratched, and after the tens of millions of acres now idle are under successful cultivation, there remain the great deserts which can be made to bloom. Texas is planting oil and making millions on rough, and every week some new field of rich oil is found. Take this one item of illuminating oil. Twenty-five years ago the exports amounted to 200,000,000 gallons; last year they were 721,000,000 gallons. The other day a ship left this port with a cargo of nearly 200,000 tons of refined petroleum for Japan. The figures of the trade are almost startling and it is not surprising to hear that the railroads are preparing to build at Atlantic ports elevators to hold millions of bushels as necessary additions to facilities which already exceed anything of the kind on earth. We not only light and feed and build bridges, and clothe and adorn, but we keep our friends clean. It is a really enormous feat that the United States is capturing the soap trade of the world.

So great is the American opportunity that the optimist cannot believe his own arithmetic. Take, for instance, the fact that Parliament, in order to find revenue for the terrible drain in South Africa, has placed an export duty of a shilling on every ton of coal sent out of Great Britain. It opens a large part of the world to American coal which means millions of dollars added to our wealth, for the British exports of coal last year amounted to \$1,000,000,000. Wall Street will have its ups and downs, but the great American people move forward in the line of world conquest—the greatest and best conquest of all, the peaceful winning of the world's trade.

The ordinance quoted yesterday which was passed by a Democratic council and approved by Mayor Yeager, relieving the water company of the filtration of water except through the patent rotary strainer, speaks for itself. Mayor Lang continues to repeat the old ordinance requiring the company to furnish "clear, filtered Ohio river water" and the water company so continues it. The action of the present administration, and of former administrations, leaves the construction out, and the action of the water company bears it out. Hence it makes no particular difference what may be said in opposition to such a construction of the ordinance.

The United States has decided that this government will not consent to an arbitration of the claims arising out of the explosion of British subjects from Hawaii unless England consents to arbitrate certain claims of this government known as the Filippino claims. Our claims amount to much more than those of the British. The department is anxious to clear up all the claims pending between the two governments, and if Great Britain will agree to arbitrate the American claims the United States will not doubt be willing to adopt this course with respect to British claims.

Great Britain has decided that all American captured fighting in the Boer army must remain prisoners until hostilities cease. The case was that of a man named Morgan, of Virginia, who is now a prisoner in Teylon. The highest officials of the government decide that such Americans are to be treated as belligerent enemies and kept prisoners until the close of the war. This view will doubtless be concurred in by this government. If our people want to take part in a war that doesn't concern them they must take the consequences.

Will some one please explain what has become of the \$100,000 reward found? Has Mr. Justice O'Neil been drawing that too? Of course \$100,000 is a mere bagatelle to the people of Kentucky, and they wouldn't miss it, but simple curiosity prompts a great many of them to wonder what disposition has been made of it, how much has been spent and for what it was spent. We know the gang doesn't need any of it as long as there are so many other people's salaries to draw, but will there be any of it left for the enterprising Frankfort gang when salaries give out?

A Pilot Scott jury has decided that one of the laws passed as a result of Mrs. Nation's crusade, authorizing county attorneys to summon and examine witnesses relative to violations of the anti-liquor law, is unconstitutional. Mrs. Nation and her husband were not present, which judgment necessitates for the decision.

The supreme court of Kansas has just decided in favor of the big irrigation law, which makes possible the biggest irrigation scheme ever attempted in Kansas. After they get through irrigating the state they might devote a little attention to civilizing it.

Sometime ago a jug of water drawn from a hydrant in the city was sent away for chemical analysis. The result of that chemical analysis has never been published. If there is anything reassuring to the public in the analysis, now is a good time to make it public.

## WHAT SOME MEN STILL LIKE.

Men who have rise a to emulience still find a great deal of pleasure in the things that some of them in their earlier and less prosperous days. As an example between two stories told by the Saturday evening Post:

"The language of the soft spring days carries no lack in memory to the beginning of my professional career," said ex-Senator Chandler, of New Hampshire, the other day to a friend.

"There used to be in the streets of Portland, not far from my office, some day greeds boys which were much sought by at times when the weather was fine and time hung some what heavy upon the hands. When the spring feeling was strongest on me, I used to think, from my perch on one of these boxes, that life would be a delightful grind if I must go back to my desk and work. Since then I have learned that there is no such thing as a job of duty.

"When a man has once acquired it he can no longer sit quiet on a dry goods box and so on himself. He must always be doing something, or he is uncomfortable, and enforced leisure is more known to him than the hard work of labor. I required the duty last forty years ago, and a balmy spring day, though it never fails to call up a memory of my youthful love for a loaf in the sunshine, inspires me with no temptation to repeat that experience."

Mr. James Wilson, secretary of agriculture, though a Scot by birth, passed a part of his boyhood in New England, and loves to go back there now and then and see how the country looks.

"The New England farmer," he said to a recent visitor, "has a pretty hard struggle to make a living from the soil, but there is a charm about life amid his hills which no one can resist. Where he cannot raise crops, he can at least raise wild animals."

I was traveling through New Hampshire some time ago on my way to deliver an address, when looking out of the car window I saw a boy trying to capture a wood chuck which had taken refuge in a hole in the ground and was showing fight.

"I fairly made my heart leap again as it used to when I was a lad. If I had owned the railroad I would have ordered the conductor to stop the train and hold it till I could get off and help the boy catch that wood chuck."

"I wonder if he ever caught it," he added, dreamily, after a pause.

## TO INSTALL.

### INS. ALLED THIS WEEK.

Union Local 1, D. O. E., will tonight install the following officers: C. H. Ransom, Chief Patriot; Peter Hechtelach, S. ulor Warbur, and William Botting, Junior Warbur. Seven appointive officers are yet to be named at this meeting.

A movement is on foot to reorganize the Canton, which existed a few years ago, and there have already been secured fifteen of the twenty-five members needed.

Thursday evening Mangum Lodge will install the following officers: Z. B. Underwood, Noble Grand; J. W. Brown, Vice Grand.

Ingoldsby Lodge installs the following evening the officers already chosen: A. E. Bryant, Noble Grand; A. J. Mavor, Vice Grand. Each body selects nine appointive officers for six months. The secretary and treasurer retain their respective places for one year.

## OUTSIDE COMPLETE.

### WORK ON THE OUTSIDE OF THE OPERA HOUSE FINISHED.

"The Kentucky," Paducah's elegant new opera house, is now under roof, and it will be but a few days until the plastering is complete. The roof was completed yesterday and the gutters put on this morning.

Work has been pushed with great rapidity by Contractor Kettorjohn, and the edifice will be finished sooner than expected.

## REVENGE OF ROWAN.

### WHY HE APPLIED THE TORCH TO A FILIPPINO VILLAGE—TRACHERY AND A HOT FIGHT.

Leavenworth, Kas., July 9.—Details of the alleged offense of Capt. A. S. Rowan, the burning of a Filipino town, for which he is to undergo investigation, have been received here in a letter from Private John E. Watson, Nineteenth Infantry, dated Japan, Manila Island, May 13. The letter says:

"A native spy came into the post and walked over to Capt. Rowan's tent and looked in and found it empty, but when he started to go away he saw Corporal Daly standing a few yards away. The spy took Corporal Daly for the captain and, walking up to him, gave him a folded note. As Daly took the note to read it the spy drew out a dagger and stabbed him to death. The insurgents had planned to rush in and cut the rest of us down in the confusion that would follow the captain's death, but we coolly fell in under arms and formed a skirmish line around the post. The insurgents thought they had got Capt. Rowan, so when the skirmish line advanced they met about 100 men in the bush. About fifty of the enemy were killed and about a dozen taken prisoners, who were killed while trying to escape. The men caught the spy who murdered Daly. They would have tortured him to death, but some men with a cooler head than others shot the wretch in the head. The town was burned and a few Filipinos killed."

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address:

## QUARTERLY REPORT OF THE CITIZENS' SAVINGS BANK.

At the Close of Business on the 29th of June, 1901.

## HOW DO YOU CARRY AN UMBRELLA?

The man who sat nearest the window said he didn't mind the wet weather. "It gives me a chance to see how people carry their umbrellas," he said. "I have such a faith in my umbrella's effectiveness that I would not be afraid to choose a wife with them for a guide."

The woman in his left smiled. "I'm glad I'm not out there on the street," she said. "You'd be picking out all the kinks in my disposition along with the rest of them."

"Oh," said the man, "I stood up in a long time ago. You carry your umbrella, when it's furled, just like that woman across the street. You grab in the middle and go foraging about with the ends of the handle digging into the unfortunate pedestrians' legs before and after."

"And what does that signify?" asked the woman on the left.

"Alertness, activity, scholarship and ineffectualness."

"I'm in it," said the woman.

"But just look at the third woman in the procession," said the man. "I pity the poor folks along her line. I'll warrant they have to get their own breakfast about six mornings out of seven. I never get a woman who drags her umbrella along so that you could track her by the trail of the tip who wasn't dilatory and shiftless. She never says on a but, top, or drums, or means and her breakfast dishes are seldom washed before two o'clock."

"That other woman who is hanging along holding to the top of the umbrella handle like grim death and pointing the tip down and forward in a kind of south by westerly direction is altogether different. She would set the world on fire if it wasn't waterlogged. I'm not sure that I want to be married to her, either. She'll push everything before her and when she takes a notion to clean things up a mere man would have nowhere to lay his head. What she is good for is serving on committees."

"That woman in the gray skirt is a real and nay sort of a person. She wants to agree with everybody and follows wherever led. Women who carry their umbrellas with the point backward and downward are always misanthropic."

"But just look at that girl who spins along swinging her umbrella in a circle as if it were a magic wand. I like her. She's jolly and good natured and gets more pleasure out of life than ten ordinary people. There's a woman carrying her umbrella swung across her shoulder like a shotgun. She's a true soldier of fortune, and was never known to die. I can't think of anything that would faze her."

The man paused.

"And what would you say?" asked the woman, "about that girl who catches her umbrella horizontally across the small of her back and catches it either end into the crook of her elbow?"

"Well," admitted the man, "she is a new one on me. I never met her before, but I wouldn't be afraid to wager that she's conscientious to a degree and has a heart as big as all outdoors. But there," he added, "comes the most even tempered woman of the lot. She handles her umbrella protectively under her arm as if she doesn't want even it to get hurt in the crowd. That woman is gentle and thoughtful and kind."

## TO ALL PERSONS HAVING FARMING TIMBERED, OR MINERAL LANDS, OR WATER POWERS FOR SALE.

The Nashville Chattanooga St. Louis Railway desires to use its best efforts to make a great class of immigrants to settle in territory contiguous to its line and to engage the attention of capitalists seeking manufacturing sites of mining property. It therefore solicits the support, cooperation and the assistance of the people of every county through which its lines pass. The management earnestly requests that all persons who have farms for sale or lease, those who have timbered lands, water powers, or mineral lands for sale, will send a brief description of the same to the railroad agent in that town, giving the price and terms of sale. The prices must be stated and with the price asked of local buyers. The management does not propose to sell or lease land to immigrants at exorbitant or speculative prices.

Large tracts suitable for colonization, at low prices, are especially wanted.

## The Tiresome Young Man.

"A very droll young man took a seat in a smoking car," said the hostess, who joined in the after dinner story telling. "After he had three or four cigars smoked, he fell asleep. I fell asleep, one of whom suggested a game of cards, and the others agreed. They appealed to the young man to take part and make up a four handed game."

"Thank you, I never play cards," came the response to the invitation.

"I am sorry for that. Will you have a cigar with us?" added the spokesman, producing his case.

"I'm obliged to you, but I never smoke," replied the droll young man.

They thought they would jolly the young fellow out of a drowsy, so the leader produced a smoking companion and asked:

"As you do not play cards nor smoke you will not refuse to join us in a drink?"

"I thank you, gentlemen, but I never drink."

"With this a considerable man with industrial aspect sitting in the seat behind the young man reached forward and tapped him on the shoulder."

"I have heard what you have said to these men," said the solid old fellow, "and I admire you for the stability of character which has enabled you to stand on your feet. I have a daughter in the parlor on whom I should like to have you marry."

"I thank you," replied the young man, turning round and facing the gentleman, but the fact is I never intend to marry."—Melbourne Sentinel.

## A Cherokee Dish.

An article of food much used by the Cherokees is made from corn. The process is first to soak the corn in strong brine made from lye and ashes, just as white people in the country make lye corn. Then run the balls through a large mortar and pound the corn by following on the end of a long pole and is pounded by a large pestle.

As the process of pounding goes on the crushed corn is removed from the mortar and mixed with a sieve made of cane and then strained in the sieve to remove the lye. The corn is then mixed with a little oil and then placed in the mortar and pounded into a fine meal. It is then baked on a fire with a little fat and sugar.

A small amount of lye is left in the meal and it has a tendency to preserve it for a long time. However if the corn is mixed with a little oil and then placed in the mortar and pounded into a fine meal. It is then baked on a fire with a little fat and sugar.

## Never Washed Herself.

Reminded Old Lady to Little Girl: "My little dear, do you wash your face and hands every morning?"

"No, ma'am."

"What a good point! That's perfectly dreadful! Do you wash your face in the middle of the day?"

"No, ma'am."

"What a good point! When do you wash your face?"

"I don't wash."

"What a good point! It is shocking how dirty the lower classes are! I must organize a society to see that children are properly washed. Tell me, little dear, do you really never wash your face?"

"No, ma'am. Ma'amma washes me every morning."

"You are sure you can support my daughter in the style to which she has been accustomed?" asked the lady father.

"Sure," answered our hero, with the assurance of youth.

"Well, I'm glad to hear it. It's more than I can afford any longer."—Indianaapolis Press.

INSTANTLY KILLED

YOUNG MAN NAMED GOYER KILLED NEAR PRINCETON.

Ky. Yesterday—He Attempted to Stop a Runaway Horse and Was Trampled On.

Given Goyer, a young farmer living eight miles south of Princeton, Caldwell county, was almost instantly killed yesterday afternoon while attempting to stop a runaway horse. He died a hero.

A young man named Tandy got out of his buggy to open a gate, leaving his little sister in the buggy. The horse took fright and started to run away. Tandy hung heroically to the reins, and was thrown and dragged some distance, but finally lost his hold, and the horse dashed on with increased speed.

Goyer was at work in a field adjacent to the road, and seeing the approaching runaway, rushed out to stop it and rescue the child.

He seized the bit, and was knocked down by the horse and trampled on, being almost instantly killed.

The child was thrown out of the buggy before the horse stopped, but was not seriously hurt, and Tandy's injuries were not of a serious nature.

The child was thrown out of the buggy before the horse stopped, but was not seriously hurt, and Tandy's injuries were not of a serious nature.

Goyer was at work in a field adjacent to the road, and seeing the approaching runaway, rushed out to stop it and rescue the child.

He seized the bit, and was knocked down by the horse and trampled on, being almost instantly killed.

CAPT. GUPTON DEAD

WELL KNOWN RIVER MAN DIES FROM GENERAL DEBILITY.

Had Run On the River For Many Years and Was a Popular Man.

Pilot Wm. R. Gupton, after a long illness, died from general debility yesterday at his home in Smithland, removing one of the best known and most popular of the older river men.

Mr. Gupton was born at Smithland and was about 55 years old. He had for many years run between Cincinnati and Cairo, Florence, Ala., and Cairo, and Nashville and Cairo, and was known all along the river where his boats touched.

His health began failing some time ago, and for many days past he had been in a precarious condition.

He was unmarried, and leaves a mother, two sisters and a brother.

The remains were buried yesterday afternoon at Smithland, beside those of his old comrade, Captain Chen Matheny.

HEALTH BOARD.

IT WILL MEET TODAY TO CONSIDER WATER AND SANITATION.

The Board of Health will meet in the office of Dr. J. H. Robertson this afternoon at 1 o'clock for the purpose of discussing the sanitary condition of the city and for the further purpose of taking some definite action in the matter of giving to the city pure water. A San reporter in an interview with a member of the board of health was told that the citizens would be given pure water and that the members of the board would spare no efforts to effect this end.

"Pure water is as much essential to the general health of the city as is the leaf inspector," he declared.

"There is much sickness in the city and if a change is made the people will soon see the difference in the amount of sickness."

The city authorities have already put forth efforts to have the sanitary condition of Paducah improved and several cases where a branch of "ordure" has been committed have been in court and the offenders fined.

With the combined action of the city authorities and the board of health the public will soon experience a decided change in the general health of the city.

Notice of First Meeting of Creditors.

In the district court of the United States for the district of Kentucky in bankruptcy.

In the matter of Matthew E. Ham, bankrupt, in bankruptcy.

To the creditors of Matthew E. Ham of Paducah, in the county of McCracken, in said district aforesaid, a bankrupt.

Notice is hereby given that on the 6th day of July, A. D. 1901, the said Matthew Ham was duly adjudged bankrupt, and that the first meeting of his creditors will be held at my office in Paducah, Mo. Cracker county.

On the 5th day of August, A. D. 1901, at 1 o'clock, upon petition, at which time the said petition may be read, prove their claims, appoint a trustee, examine the bankrupt, and transact such other business as may come properly before said meeting.

Diamond Cement.

Diamond cement is made as follows: Take five ounces of the finest sand, one ounce of water, and one ounce of glacial acetic acid. Let the mixture stand for several hours and then heat it to effect solution, after which add ten grains of carbolic acid to preserve the cement.

The following formula is given for making the well known cement of Pompeii, or universal cement: Dissolve eight ounces of sugar in twenty-four ounces of water in a glass flask on a water-bath, and in the thin stry add two ounces of slaked lime. Keep the mixture at a temperature of about 70 to 75 degrees centigrade for three days, shaking frequently, then cool and decant the clear liquid. Strain it and add one-half ounce of the liquid with as much water, and in the mixture steep sixteen ounces of fine gelatin for three hours after heating to effect solution. Finally add to the mixture an ounce and a half of glacial acetic acid and fifteen grains pure carbolic acid.

Want an Automobile Speedway.

The managers of the Pan American exposition at Buffalo are endeavoring to secure permission to run off an automobile road race some time during next summer. A level five-mile stretch of road near the city has been selected and valuable prizes will be offered. The promoters desire it to be understood that they do not favor promiscuous road racing, and if the desired permission is granted they will take unusual precautions to avoid accidents.

Triumph of Mechanical Genius.

In 1831 Matthias Baldwin built the first American locomotive with his own hands and it took him a year to do it. Nowadays if one man were compelled to perform the total labor of a single day in the Baldwin locomotive works it would take him just twelve years. In this he would need the help of modern tools. If he had not these tools the day's work would mean his lifetime.

Forest and Climate.

Too much forest growth has an depressing effect on the climate as too little. Careful training and training are needed to keep the balance really beneficial to mankind.

Many George Washingtons.

The attention of the person herein has been called to one thing in the civil war in which, according to the tolls, twenty-eight colored George Washingtons served. A single company shows a number of thirteen George Washingtons by the application filed.
